Re: Extension of Communications RFP: Public & Stakeholder Engagement Services

Please Note: RIHousing has extended the deadline for respondents to submit proposals to provide Public & Stakeholder Engagement Services to the corporation to Friday, October 12, 2018 at 5:00 pm EST. The deadline has been extended as RIHousing did not receive a critical mass of applications that met threshold requirements for consideration and evaluation. The most typical reasons for applications to have not met thresholds were:

1. Failure to provide responses to questions included in sections A through E (“Items to be Included with your Proposal”)
2. Failure to include Certifications as required (“Certifications”)

Additionally, of those firms that met thresholds requirements, many did not provide adequate information on experience relating to Public & Stakeholder Engagement services, relevant work samples, or experience with similar organizations or objectives. Specific examples of the audiences and purposes of Public & Stakeholder Engagement Services are outlined under the Scope of Work in the RFP.

Firms who previously submitted responses to the Request for Proposals (RFP) for Public & Stakeholder Engagement are invited to re-submit for consideration. Applicants and re-applicants are encouraged to carefully review the RFP and include all required information with their submissions.

Sincerely,

Christine Hunsinger
Assistant Deputy Director for Policy and Research
