

**Exhibit A:**  
**RIHousing HTF Rehab Standards**  
**Property Maintenance Code Inspection Form**

**Notes to HTF Recipients on the Requirements/Directions in Using this Form:**

1. Inspections using this form are required to be conducted on 10% of units (if development is in one building) or in at least 1-unit per building (if development includes multiple buildings).
2. HTF recipients are required to address Level 1, Level 2, or Level 3 Non Life Threatening deficiencies in the scope of work approved by RIHousing staff between preliminary award and commitment of funds (See Section V. Scope of Work Determination in HTF Rehab Standards document).
3. "NOD" means No Observed Deficiency and "NA" means that the inspectable item is not present in that unit/building. If there is no observed deficiency for that item, check mark the "NOD" box; if the inspectable item listed is not present at that site then check-mark "NA".
4. One box must be checked for each observable deficiency row in this Form.
5. If there is a deficiency found at any level and the H&S (Health and Safety) column is grayed-out, then the deficiency is not considered a health and safety hazard. If the H&S column contains an "NLT", then a marked deficiency is non-life threatening and correction of that deficiency can be included in the scope of work.
6. **Level 3 Deficiencies noted as Life Threatening (LT) Hazards in the H&S column of this report must be corrected immediately within 12 hours, if the housing is occupied. RIH requires a written response and completed work orders within 24 hours of repairs.**
7. In instances in which the Level 1, 2 or 3 deficiency is grayed-out, then this level of deficiency is not applicable for that inspectable item for the Final Dictionary of Deficiency Definitions (link in footer, below table).
8. In order to accurately categorize a deficiency as a "Level 1", "Level 2" or "Level 3" (including independent Health & Safety items), you must refer to the Final Dictionary of Deficiency Definitions (PASS) Version 2.3, dated 03/08/2000. This document can be found at [http://www.hud.gov/offices/reac/pdf/pass\\_dict2.3.pdf](http://www.hud.gov/offices/reac/pdf/pass_dict2.3.pdf) (325 Pages, 343 KB)
9. Additional clarification to these definitions is contained in the REAC PASS Compilation Bulletin which can be found at [https://portal.hud.gov/hudportal/documents/huddoc?id=CompBullet4Ver2\\_31515.pdf](https://portal.hud.gov/hudportal/documents/huddoc?id=CompBullet4Ver2_31515.pdf) (40 Pages, 459 KB)

**PLEASE NOTE:** RIHousing will conduct an initial inspection to confirm the deficiencies that must be addressed, and will conduct progress and final inspections to determine that work was done in accordance with work write-ups.
