

FirstHomes TAX CREDIT

Every first home has its rewards

The FirstHomes Tax Credit is a great option to help first-time homebuyers save money.

What is the FirstHomes Tax Credit Program?

The FirstHomes Tax Credit, also known as a “Mortgage Credit Certificate,” reduces the amount of federal income tax a homeowner pays by providing an annual federal income tax credit, not a tax deduction, that is in effect for the life of the accompanying mortgage, as long as the homeowner occupies the home as their principal residence.

The federal government allows each homeowner to claim an itemized federal income tax deduction for the amount of mortgage interest paid each year. For a homeowner with a FirstHomes Tax Credit, this benefit is even better: 20% of your annual mortgage interest (up to \$2,000) will be a direct federal tax credit, resulting in a dollar-for-dollar reduction of your annual federal income tax liability. The remaining 80% of your annual mortgage interest will continue to qualify as an itemized tax deduction.

How do I obtain the FirstHomes Tax Credit?

You may seek mortgage financing from any lender. However, the Credit is only available through RIHousing or a FirstHomes Tax Credit Approved Lender.
