

FY26 Health and Housing Program (HHP) Pilot Information Session

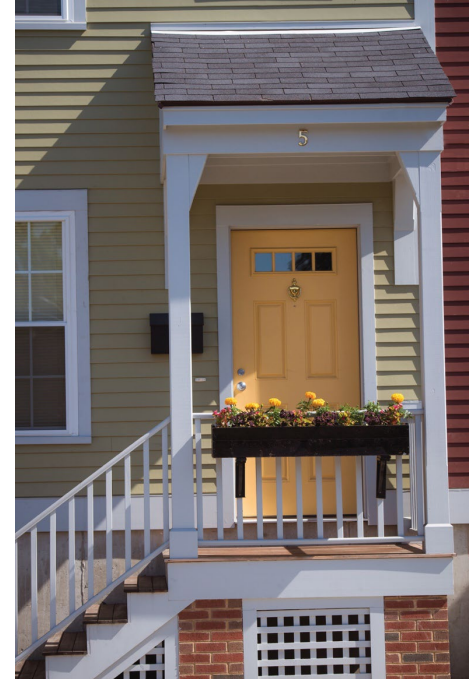

HHP: Program Overview

- Intended to create partnerships between housing developments and healthcare providers to increase positive health outcomes and housing stability
- Pilot (third year)– Hope to learn if having healthcare services easily accessible within the housing development will increase these outcomes
- Models: Co-location of healthcare services or care coordination of healthcare services

Program Overview – Examples

- Mental health services
- Children/youth focused care
- Services for the elderly
- Elderly patients facing complex needs
- Substance use services
- Management of chronic disease medical needs
- Primary healthcare connections and coordination

These are **examples** – RIHousing defers to applicants to determine the healthcare needs of residents and demonstrate that need

Eligibility/Threshold Requirements

- Must be a RIHousing financed development (Attachment A in RFP)
- Housing development cannot be scattered site
- Must have letter of intent between healthcare provider and housing development
- Healthcare worker must provide services **onsite** at the housing development
- Existing development – must be fully occupied by December 31, 2025

- Encourage interested parties to reach out directly to each other

Funding Available

- ~\$450,000
- \$150,000-\$200,000 per award
- Anticipate making 2-3 awards
- 3 year grant term

Application Process

- Application through SmartSheet
- Fill in fields and upload documents
- ALL components of the application must be submitted
 - Narrative
 - Budget document (Attachment D)
 - Certifications (Attachment C)
 - Letter of Intent

DEADLINE: 3:00 PM on November 21, 2025

Previously funded projects

Women's Development Corporation/Housing Opportunities Corporation and Wood River Health (two pilot grants)

- Two developments in South County employing a care coordination model. Managing health concerns and challenges, connecting to local resources, navigating health insurance, education related to healthcare needs, addressing social determinants of health.

Newport Mental Health/Peabody Resident Services

- Case Manager at three developments on Aquidneck Island to support residents in accessing healthcare, navigating social services, and addressing social determinants of health.

Tides Family Services/Pawtucket Central Falls Development

- Youth behavioral services with a focus on preventative, youth diversion programs designed to prioritize serving youth and their families who need assistance with improving family functioning, meeting basic needs, preventing DCFY involvement, developing coping skills, and preventing out-of-home placement.
- Two additional projects for older adults, including healthcare services and supports to keep them safely and stably housed
