02.4 Uses: input all development costs for the project

1. Please make sure to choose a Construction type using the drop down. For projects with only one construction type, only one column will be populated.
2. Please enter Residential and Commercial uses in separate columns.
3. Columns allow the user to identify which costs are eligible for Acquisition Credits, for New Construction / Rehab Credits, HOMER eligible basis, and for tax-exempt bond deals, the aggregate basis plus land.
4. Note that the Construction Costs will flow from the detailed schedules on sub "03.1 Construction Cost"
